

Software tools for rock and soil

## Now Available - Graduate Student Education License

Rocscience is now pleased to offer individual education licenses for graduate students who are using Rocscience software for their theses and research projects, at no charge. This service is available to PhD and Masters students who are working under the supervision of a Professor whose department subscribes to the Rocscience Education Program.

To be eligible, the student and supervisor must complete this form, outlining the research project below, and then return this completed form to us by email or fax: +416-698-0908. Subject to approval, graduate students will be provided with the appropriate Rocscience software to install on their individual computers for the academic year.

### Rocscience Program(s) to be used for the project:

<input type="checkbox"/> <b>Phase<sup>2</sup></b>	<input type="checkbox"/> <b>Settle<sup>3D</sup></b>	<input type="checkbox"/> <b>RocData</b>	<input type="checkbox"/> <b>Dips</b>
<input type="checkbox"/> <b>Slide</b>	<input type="checkbox"/> <b>RocFall</b>	<input type="checkbox"/> <b>RocPlane</b>	<input type="checkbox"/> <b>Swedge</b>
<input type="checkbox"/> <b>Examine<sup>3D</sup></b>	<input type="checkbox"/> <b>Unwedge</b>	<input type="checkbox"/> <b>RocSupport</b>
