

Rocscience Inc.
is pleased to announce
our upcoming tour of the
United Kingdom this fall

Dr. John Curran, Founder and Director of Rocscience Inc., and Ms. Evelyn Cunningham, President, will be visiting the United Kingdom this fall.

We hope to accomplish two things during our visit. First, we'd like to take the opportunity to visit our longstanding customers for feedback and discussion about how we're doing. Customer feedback is a huge part of our product development and we value all comments provided.

Second, we receive many enquiries from our U.K. customers regarding training seminars and generalized courses for our software. There is still time to include your company in our tour and we would be happy to do so.

We hope to be able to meet with you and your colleagues in the fall. If you have any interest in a visit to discuss our software, please do not hesitate to contact us with any requests or suggestions.
