

# Rocscience Student Interns - Fall 2012

Gavin Luo - University of Waterloo  
Computer Science

Steve Chai - University of Waterloo  
Civil Engineering

Andy Zhang - University of Waterloo  
Computer Engineering

Daniel Wai - University of Waterloo  
Civil Engineering

The Fall 2012 term with the University of Waterloo co-op students was great! They applied their ping pong skills to playing pool, with great results. These students made significant contributions to the Rocscience software development during their four month internships, from working on a new algorithm for RocFall, 3D mesh visualization and finite element analysis improvements for RS<sup>3</sup>, to developing a new soil liquefaction add-on to Settle<sup>3D</sup>.
